

# RackHD Release Notes 2.0.0

## API 1.1 has been Retired !

1.1 API and legacy event notification format will NOT be supported in the coming 2.0.0 release ( ETA 3/14/2017) Together with deprecated 1.1 API not supported, legacy RackHD asynchronous event notification payload format will also not be supported in the coming 2.0.0 release.

- The new format and more details are described at [http://rackhd.readthedocs.io/en/latest/rackhd/event\\_notification.html](http://rackhd.readthedocs.io/en/latest/rackhd/event_notification.html)
- If you're using RackHD 1.x.x release or older versions, it won't be impacted
- If you want to change to use 2.0.0 release, a 'version' field could be used for event notification backward compatibility in the future.
